

POLYMER TECHNOLOGY CENTER

SPE SCHOLARSHIP RECIPIENTS FOR 2011-2012

PTC would like to congratulate the following students, who were awarded SPE scholarships.

SPE SCHOLARSHIP

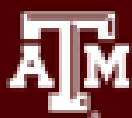

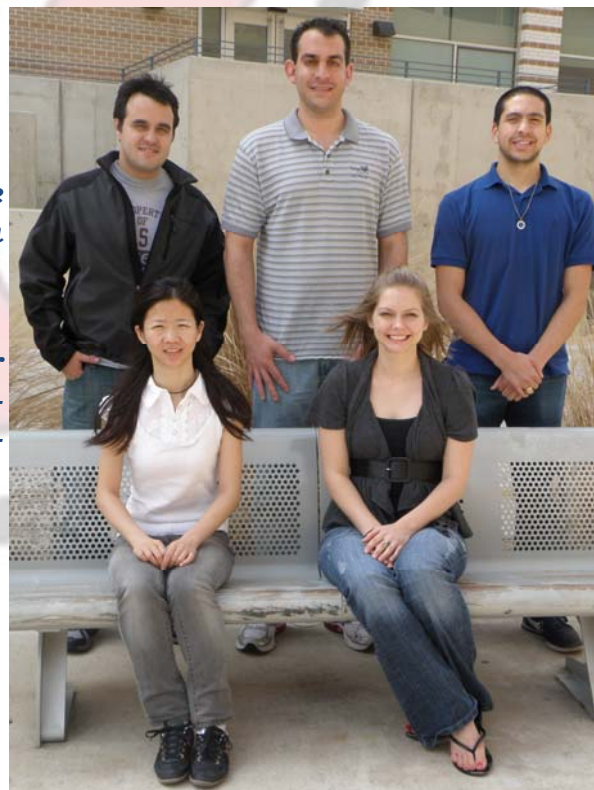

- Jacqueline Pope, CHEM, research in: *"Immobilized Sonogashira Catalyst Systems for C-C Coupling Reactions: New Mechanistic Insights and Improved Recyclability"*
- Min Shuai, MSEN, research in: *"Two-dimensional conductive behavior of carbon nanotube thin films"*

SPE/Dale Walker Memorial Scholarship

- Spencer Hawkins, AERO
- Andres Mejia, CHEN, research in: *"Self-assembly of unifaced, janus and gemini discotic colloids"*

SPE/Henry Kahn Memorial Scholarship

- Hsiu-Chin Huang, MEEN, research in: *"The order-disorder transition of Ionic clusters in layer-by-layer multilayer with ionomers"*
- Philip Imbesi, CHEM, research in: *"Amphiphilic Hyperbranched Fluoropolymer Networks as Passive and Active Anti-biofouling Coatings: From fundamental chemical development to performance evaluation"*

TEXAS A&M
